GRIGG™ TUFF TURF®

1-0-14 + Si + Micros

GRIGG™ Tuff Turf® supplies potassium (K) which increases turfgrass tolerance to cold temperatures, high temperatures, moisture stress, and salinity stress.

Tuff Turf Advantages

- Contains high levels of available potassium (K), which can be quickly absorbed by the plant tissue and is very effective when applied as a foliar.
- Benefits of high potassium levels in turfgrass plants are well documented and include enhanced resistance to abiotic stress.
- Contains silicon (Si) for plant strength and magnesium (Mg) for improved chlorophyll production and turf color.
- Also contains organic and amino acid based chelated micronutrients, including iron (Fe).

Application and Use

For general foliar application guidelines please refer to page 50.

Turfgrass:

Apply 3-8 fl oz per 1000 sq ft (10-20 L/Ha).
